

## ***Risk Exposure and Informed Consent Framework***

*This Framework is issued for the purpose of clearly communicating the nature, scope, and extent of risks associated with accessing, using, or engaging in any financial instruments, services, or trading facilities made available by the Company. Participation in trading activities signifies that the User has carefully reviewed, fully understood, and voluntarily accepted all risks described herein, as well as those inherent to global financial markets.*

### ***Clause 1: Nature of Financial Market Exposure***

*Participation in financial markets involves exposure to instruments whose value is derived from underlying assets and reference benchmarks. Such instruments may include, without limitation, derivative contracts, margin-based products, and other leveraged instruments whose pricing is influenced by market movements, liquidity conditions, and external economic factors. These instruments are inherently complex and may experience rapid valuation changes within short periods of time.*

### ***Clause 2: Suitability and Appropriateness Considerations***

*Engagement in leveraged and derivative trading is not suitable for all Users. The User confirms that they have independently assessed their financial situation, investment objectives, experience level, and risk tolerance prior to accessing the Company's services. Only capital that the User can afford to lose without impacting personal financial stability should be used for trading activities.*

### ***Clause 3: Leverage, Margin, and Amplified Risk***

*Leveraged trading magnifies both potential gains and potential losses. The User acknowledges that leverage may result in losses exceeding the initial margin deposited. The Company retains the right, without obligation to provide prior notice, to initiate margin-based actions including position reduction or liquidation where margin thresholds are breached or market conditions deteriorate.*

### ***Clause 4: Price Volatility, Slippage, and Market Discontinuities***

*Market prices may move rapidly due to volatility, liquidity shortages, or extraordinary market events. As a result, order execution prices may differ materially from expected or displayed prices. The User accepts*

*that slippage, price gaps, and execution variance are normal market occurrences and do not give rise to liability on the part of the Company.*

#### ***Clause 5: Margin Maintenance and Risk Monitoring Obligations***

*Responsibility for monitoring account equity, margin usage, and exposure levels rests solely with the User. The Company is not required to issue margin warnings or reminders. Failure to maintain required margin levels may result in forced position closure, liquidation, or other protective actions deemed necessary by the Company.*

#### ***Clause 6: Absence of Profit Assurances***

*No representation, warranty, or assurance is provided regarding profitability, performance, or return on investment. Historical performance, simulations, or hypothetical results do not guarantee future outcomes. The User accepts that total loss of invested capital is possible.*

#### ***Clause 7: Order Execution and Contract Expiry Risks***

*Trade execution is subject to prevailing market conditions, system availability, and instrument-specific rules. Orders may not be executed in whole or in part. Where positions are not closed prior to expiration or contract maturity, the Company may close such positions automatically in accordance with platform rules, regardless of unrealized profit or loss.*

#### ***Clause 8: Informational Content and Non-Reliance***

*Any market commentary, analysis, educational content, or trading tools provided by the Company are supplied solely for general informational purposes. Such materials do not constitute investment advice, recommendations, or guarantees. The User remains solely responsible for all trading decisions.*

#### ***Clause 9: Regulatory, Taxation, and Legal Responsibilities***

*Trading activities may give rise to reporting, tax, or regulatory obligations within the User's jurisdiction. The User bears full responsibility for compliance with all applicable laws, regulations, and reporting requirements and acknowledges that the Company does not provide tax or legal advice.*

#### ***Clause 10: Technology, Connectivity, and System Risks***

*Electronic trading relies on hardware, software, communication networks, and third-party infrastructure. Failures, delays, or malfunctions may occur and may impact order placement, execution, or account access. The Company disclaims liability for losses arising from technical disruptions beyond its reasonable control.*

#### ***Clause 11: Informed Acceptance of Market Risk***

*By continuing to access or use the Company's services, the User confirms an understanding that convenience, automation, or digital access does not eliminate financial risk. Trading decisions are undertaken voluntarily and entirely at the User's own risk.*

#### ***Additional Clauses Added (New and Recommended for User Terms & Conditions)***

*The following clauses were **newly introduced** and are recommended for inclusion across your User Terms and Conditions framework:*

#### ***Clause 12: No Fiduciary Relationship***

*Nothing within this Framework or any related documentation shall be construed as creating a fiduciary, advisory, or trust-based relationship between the Company and the User. The Company acts solely as a service provider.*

#### ***Clause 13: Risk Disclosure Acknowledgement and Binding Effect***

*The User expressly acknowledges that this Framework forms an integral and binding part of the Agreement. Continued use of services constitutes ongoing acceptance of all disclosed risks.*

#### ***Clause 14: Jurisdictional Risk Awareness***

*Market access, instrument availability, and regulatory protections may vary by jurisdiction. The User accepts responsibility for determining whether trading activities are lawful and appropriate in their place of residence.*

#### ***Clause 15: Limitation of Reliance***

*The User agrees not to rely on any oral statements, promotional materials, or informal communications that are inconsistent with this Framework or the Agreement.*
